

PAINT SUNDRIES

Stanley knows that every successful painting job – interior or exterior – starts with a properly prepared surface. So to make surface prep as easy as possible, Stanley offers a full line of paint-prep tools that are specially designed for use by professional painters, drywall contractors and do-it-yourself homeowners. Like all Stanley products, these specialized hand tools are designed and built to outperform and outlast the competition.

The Paint Sundries category includes 4 basic types of surface-prep tools: putty knives, paint scrapers, hand sanders and scrubbing brushes. Within these groups are the tools needed to prepare virtually any surface prior to patching, priming and painting. There are 17 different putty knives, ranging in width from 1-1/4 inches to 4 inches. Most have hardened tempered-steel blades fitted onto durable bi-material, nylon or wood handles.

The high-quality putty knives come with rigid or flexible blades, and are ideal for applying wood putty, joint compound and other spreadable materials. And unlike some tool companies, Stanley offers all blade widths in a choice of rigid or flexible blades, allowing the user to choose the right tool for the job at hand.

Scraping cracked, blistered paint may never be fun, but it's a lot less tedious with Stanley's line of jobsite-ready paint scrapers, which feature long handles for extra leverage and stiff, rust-resistant blades. The 8-tool lineup includes several specialized models, including a safety soft-grip window scraper, glass and tile scraper, bent-blade scraper with removable end cap for attaching an extension pole, and a 6-in-1 Paint Tool that can be used as a scraper, spreader and putty/caulk remover. It's also useful for cleaning paint-roller sleeves, pounding in protruding nail heads, and scratching open cracks and crevices.

Stanley makes 2 different hand sanders, which are useful in sanding smooth, large, flat surfaces including walls, ceilings and flat wood trim. Both models accept regular abrasive paper. Stanley also offers 9 different types of scrub brushes that can be used to clean virtually any surface you're likely to encounter. The brushes come with bristles made of carbon steel, nylon or brass, making it easy to choose the brush that will clean effectively without damaging the surface.

Rounding out the category, Stanley offers an 8-inch-wide drywall knife, 2 styles of caulking guns, and a drywall tool kit that comes with the tools needed to tape drywall joints; it even includes a roll of fiberglass-mesh joint tape.

28-223	7-2/10	183	5	5	30	076174282238

Stripping Tool

- 6-1/2cm wide - narrow profile for access in tight spaces
- High-visibility yellow for easy location

SKU #	BOX QTY	CTN QTY	UPC
28-215	4	24	076174282153

4 Edge Scraper

- Ergonomic bi-material handle
- 4-edge scraper blade
- High-visibility yellow for easy location
- Hand knob increases leverage over standard scraper

SKU #	BLADE WIDTH		BOX QTY	CTN QTY	UPC
	IN.	MM			
28-213	1-1/2	38	4	16	076174282139

Hand Sander

- High-visibility yellow for easy location
- Easy sandpaper loading mechanism
- Ability to loosen paper retainer enough to adjust paper without fully releasing

SKU #	BOX QTY	CTN QTY	UPC
28-211	3	12	076174282115

Block Sander

- Textured top surface for comfortable grip
- Provides even distribution of sanding pressure, reducing pressure marks

SKU #	BOX QTY	CTN QTY	UPC
28-212	5	20	076174282122

Stripping Brush

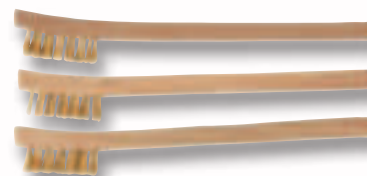

- Ergonomic handle design – comfortable for extended use
- Bi-material handle – no-slip grip
- Smooth, seamless handle construction

SKU #	BOX QTY	CTN QTY	UPC
28-222	4	24	076174282221

Brass Wire Brush 3-Pack

- Corrosion-resistant wires
- Long wooden handle
- Slightly curved handle for ease of use

SKU #	BOX QTY	CTN QTY	UPC
28-219	6	24	076174282191

Wire Brush

- Corrosion-resistant
- Carbon steel wires for durability and strength
- Ergonomic bi-material handle

SKU #	BOX QTY	CTN QTY	UPC
28-221	6	24	076174282214

Long Handle Scrub Brush

- Ergonomic bi-material design for comfortable no-slip grip
- Curved handle design allows cleaning in hard-to-reach places

SKU #	BOX QTY	CTN QTY	UPC
28-231	—	3	076174282313

Scrub Brush

- Ergonomic bi-material design for comfortable no-slip grip
- Durable nylon bristles

SKU #	BOX QTY	CTN QTY	UPC
28-233	—	6	076174282337

Jumbo Wire Brush

- Ergonomic bi-material design for comfortable no-slip grip
- Hand or pole use
- Corrosion-resistant wire bristles

SKU #	BOX QTY	CTN QTY	UPC
28-234	—	2	076174282344

Grout Brush
